IF ANY ITEMS ARE DISCOVERED MISSING, CALL 1-800-764-8688 · DO NOT RETURN TO STORE.

PARTS LIST

- *Bo Villa Gourd Unit*
- *2 Porches*
- *Round Hole Entrance Cap*
- *Qty 2, Snaps*
- *Qty 2, Washers*
- *Qty 2, sheet metal screws*

1. Note the block - where the back of the BO VILLA will attach.

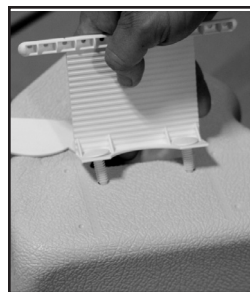

2. The back of the Bo Villa has a precut area to attach to the S&K Hanging Block. Push the block nobs through the larger Bo Villa openings, then push the Bo Villa down.

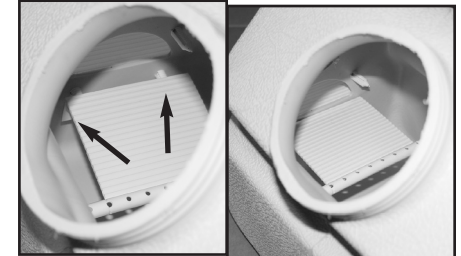

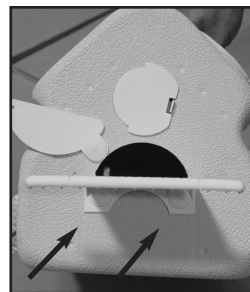

3. THIS CUTOUT shows the inside back of the Bo Villa as it is to be attached to the S&K Hanging Block. The attached area is on the INSIDE of the Bo Villa.

4. Using a sheet metal screw and washer, attach the Bo Villa securely to the Hanging Block. (This is a cut out of a Bo Villa)

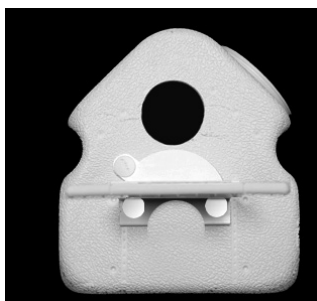

5. Attach porch to outside of Bo Villa Gourd with snaps. Push snaps securely through the two openings as shown above.

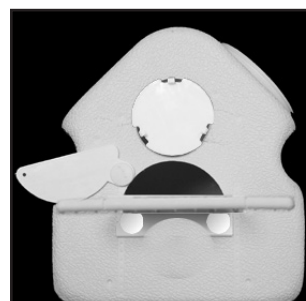

6. Remove Inspection/Clean-out Port Cap in place. Insert second porch through the inspection/clean-out port. Align porch with snaps protruding from outside porch. Push the two snap openings on the inside porch fully onto snaps, as shown above. Replace Inspection/Clean-out Port Cap in place.

Helpful Hints From S&K

To Attract Purple Martins, initially leave the top round hole open, with the Starling Resistant Entrance Hole (SREH) closed.

After Purple Martins have established their new home, use the Round Hole Entrance Cap to plug the round entrance and open the SREH as shown. This will help protect the nest from Starlings.
