

pg2e.txt

How to Install:

Since the options to hang the Ezlift are endless we have a couple of suggestions. From you local hardware store you can obtain rope with a knot tied on each end. One end below the predator guard and the other end attached to the House/Gourd rack on the 2 3/8 pole.

or

you can use (2) - 1/4 in flat washer with (2) - 1/4 All Thread (to desired legth) and
(2) - 1/4" lock nuts (one for each end
